Subject: Bernie narrative

Wondering if there's a good Bernie narrative for a story, which is that

Bernie never ever had his act together, that his campaign was a mess.

Specifically, DWS had to call Bernie directly in order to get the campaign

to do things because they'd either ignored or forgotten to something critical.

She had to call Bernie after the data breach to make his staff to

respond
to our concerns. Even then they didn't get back to us, which is
why we had
to shut off their access in order to get them to finally let us
know
exactly how they snooped around HFA's data.

Same was true with the standing committee appointments. They
never got back
to us with their names (HFA and even O'Malley got there's in six
weeks
earlier) for the committees. So, again, the chair had to call
Bernie
personally for his staff to finally get us critical information.
So, they
gave us an awful list just a few days before we had to make the
announcements.

It's not a DNC conspiracy, it's because they never had their act
together.
